

ULTRA-FLO FLUORESCENT INKS

ULTRA-FLO fluorescent inks are formulated to give you the run and print features of our standard inks. Converters can now enjoy greater efficiencies when running fluorescent inks.

- Longer Shelf Life
- Faster Press Speeds
- Higher Strength Levels
- Pour-and-Go Chemistry
- Lower Maintenance
- Improved Wet Rub
- Faster Dry Rate

Shelf Life: Eight months

Press Speeds: 200-350 FPM

Higher Strength Level: No double bump needed to equal PMS book.

Dry Rate: Fast

Finish: Matte

pH: 8.8 - 9.2; No pH. adjustment needed. To extend color, use WVL001258 Water Litho Transparent White or WVG001209 Water Gloss Transparent White.

Anilox: Use a course 360-200 line anilox 60 durometer roll. Two roll metering preferred.

Viscosity: 35-40" 3 Zahn

ULTRA-FLO fluorescent inks are available in the following colors:

WBN070203 ULTRA-FLO MATTE 801 BLUE
WBN070189 ULTRA-FLO MATTE 802 GREEN
WBN070191 ULTRA-FLO MATTE 803 YELLOW
WBN070192 ULTRA-FLO MATTE 804 ORANGE
WBN070235 ULTRA-FLO MATTE 805 RED
WBN070193 ULTRA-FLO MATTE 806 PINK
WBN070194 ULTRA-FLO MATTE 807 MAGENTA
WVB000145 ULTRA-FLO REDUCER

The values above were obtained using ACTEGA WIT, Inc. test methods and equipment, and are believed to be accurate. Duplication of results, however, is not guaranteed due to variations in equipment and methods beyond our control. Testing on actual materials is strongly recommended prior to production runs.
