

AQUEOUS POLYBOARD COATINGS

STARKOTE AQ-530

Starkote AQ-530 is our best performing polyboard coating that provides good adhesion and high gloss on polyboard with exceptional block resistance & drying characteristics. Starkote AQ-530 is designed to have excellent runnability & film forming properties on non-porous substrates to eliminate offsetting and maximize press speeds.

STARKOTE AQ-551

Starkote AQ-551 is designed to provide good adhesion and high gloss on polyboard. Starkote AQ-551 provides exceptional block resistance & drying characteristics. Starkote AQ-551 is designed to have excellent runnability & film forming properties on non-porous substrates to eliminate offsetting and maximize press speeds.

STARKOTE AQ-147

Starkote AQ-147 is a specially formulated foil coating & polyboard, has excellent clarity, non-hazing with fast set speed & film formation. Starkote AQ-147 is formulated to encapsulate ink on non-absorbent substrates to greatly minimize the potential of offsetting.
